

COPELAND FOR NEW IMMIGRATION PLAN

Would Examine Newcomers on Other Side and Distribute Them in U. S.

EDWARDS TALKS ON WETS

Teetotaler, but Has Important Mission to Fulfill in Senate.

Dr. Royal S. Copeland, Health Commissioner, and Senator-elect, defined his immigration policy in an address yesterday at a luncheon given by the New York Press Club.

He is out of sympathy, he said, with the present immigration system and suggested two reforms. Immigrants should be examined by United States health officials before they leave their native lands, and should be distributed evenly throughout this country after arrival.

"Let our officials do their work over there," he said. "Careful physical, mental and moral examination and examination with reference to industrial training should be made carefully and thoroughly. Then let the applicants for American citizenship be allocated, so far as possible, according to industrial or professional preparation."

"We will never go back to free and unrestricted immigration. I will insist on strict limitation, but the provisions of our law must be sound; they must be based on a thorough understanding of the needs of our country and they must be flexible enough to prevent the cruel and unchristian acts which are perpetrated too often at our ports of entry."

Gov. Edward I. Edwards of New Jersey, Senator-elect, also spoke. In reference to his stand on prohibition he said:

"They say I'm a friend of the bootlegger, saloon and everything else, but I'm not. I don't touch it myself, but I have utter contempt for those who are politically dry but actively wet. I'm going to start something when I get to Washington on this question, and I won't take four years to do it."

"I'm going to Washington with a lot of red blooded men who will stand up. They have to stand up, as you are behind them."

Dr. Copeland remarked that Gov. Edwards had a popular work to perform in the Senate and that he was going to help him.

UNION LABOR OPPOSES RAIL MERGER BREAKUP

Wants Southern and Central Pacific Combined.

WASHINGTON, Dec. 2.—Testimony favoring the separation of the Southern Pacific Railroad from the Central Pacific began coming into Interstate Commerce Commission hearings on the subject today from an array of individuals and communities in different parts of the West.

Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers, and other officials of labor unions were also heard, however, as the last witnesses called by the Southern Pacific counsel in their preliminary presentation of evidence and argument supporting that company's application to perpetuate the merger.

Mr. Stone and the other labor spokesmen objected to the breakup of the merger, they said, because older men in railroad train service would lose seniority, would be obliged to move from homes they have established and also might lose present employment completely.

HEALTH OFFICERS UNITE.

Meet to Effect Organization in Metropolitan District.

A health officers' organization for the metropolitan area has been organized. Dr. Royal S. Copeland, Health Commissioner, announced yesterday. A preliminary meeting was held in his office at which Yonkers, Mineola, Hastings on the Hudson, Mount Vernon, Rosedale and Long Beach were represented.

The Commissioner said: "The community has so much in common that we thought it wise to organize a health officers' organization for this district. It was decided at the meeting to appoint a committee on plan and scope and hold another meeting on the afternoon of December 12 in my office to effect a permanent organization."

NATIONAL DEBT CUT BY BILLION IN YEAR

Reduction in Interest Bearing Obligations Reported by Treasury Registrar.

RETIRE MUCH WAR PAPER

Liberty Loan Notes and Savings Securities Being Surrendered Rapidly.

WASHINGTON, Dec. 2.—There was a net reduction of more than \$1,000,000,000 in the interest bearing public debt of the United States during the fiscal year 1922, ended June 30, according to the annual report of the Registrar of the Treasury, made public today. Bearer securities to the amount of \$10,761,404,931, embracing 222,126,651 pieces, and registered securities totaling \$3,099,425,967 and embracing 7,804,875 pieces, were received, examined and retired in the Registrar's office during the year.

Of the bearer securities the amounts retired in the various classes were as follows: Pre-war loans, \$2,906,349; Liberty loans, \$4,487,880,100; treasury notes, \$72,180,920; certificates of indebtedness, \$4,780,695,500; interim certificates (Liberty loans) \$105,640; treasury (war) savings securities, \$92,300,481,322; interest coupons, \$1,023,539,322,44; District of Columbia loans, \$22,050; District of Columbia interest coupons, \$8,106,64; insular possession loans, \$32,016,000.

In the registered securities the following amounts in various classes were retired: Pre-war loans, \$170,475,820; Liberty loans, \$1,171,359,000; certificates of indebtedness, \$1,964,822,450; treasury (war) savings securities, \$60,699,207,35; interest checks (Liberty loans), \$153,549,76; District of Columbia loans, \$8,980,000; insular possession loans, \$29,867,000; District of Columbia interest checks, \$171,130,25.

The report of the registrar says in part: "The retirement of public debt securities continues in large volume, the bulk of the securities retired during the fiscal year 1922 being principally due to the great amount of war savings securities and interest coupons functioning and to the heavy transactions resulting from exchange and cancellation of temporary for permanent coupons."

The first Liberty loan of 1922-1927, bearing interest at the rate of 3½ per cent, and the Victory notes were the only issues made in permanent form having coupons to maturity attached. These temporary loans were issued to meet the urgent needs resulting from the stress of war time emergencies when the chief object was to deliver the securities in some convenient form into the hands of the public, and every facility and time saving method practical was employed with this end in view.

"The total of securities surrendered in the fiscal year 1922 was considerably less than that in the year 1921. This was due in a large measure to the stopping of Victory transactions owing to the redemption call on 3½ per cent. Victory notes and the diminishing of the transactions on temporary exchange or the exchange of the temporary for permanent bonds, the greater amount of the permanent bonds having been issued during the previous fiscal year."

ALUMNI TO HONOR DR. FLINT

Dr. Charles Wesley Flint, who recently succeeded Dr. James R. Day as chancellor of Syracuse University, will be given a dinner and reception by the local alumni and friends of the institution at the Waldorf-Astoria Hotel Friday evening, December 8.
